

Style Drupal

- custom theme met scss

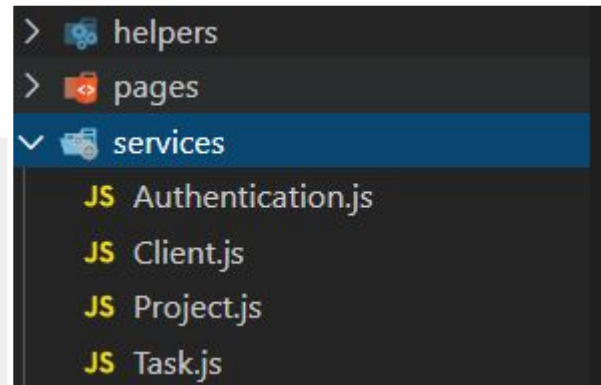

Style React

- Material UI
 - Importeren van componenten
 - hoge laadsnelheid
- Custom scss
 - overschrijven Material UI
 - responsive

```
import { Container, Card, CardContent, TextField, Button, Grid, FormControlLabel, Checkbox, Typography, FormControl, InputLabel, Select } from '@material-ui/core'
```

Orde & netheid binnen reactJS

- services
- helpers
- alles documenteren

Prijsberekening

- Views ophalen
 - De nodige velden selecteren
- Freelancer (true/false)
- Get Day
 - If saturday/sunday
 - prijs *1.5/*2
- If meer dan 8u
 - time -8
 - overige *20%

```
$freelancer = $entity->get('field_freelancer')->getString();
